WORK EXPERIENCE

SOULSTICE DATING

Full Stack Web/Mobile Engineer

April 2024 – Present

Dallas, Texas

- ❖ Collaborated closely with the CTO/CEO to realize their vision for the web/mobile application, ensuring alignment with business objectives.
- ❖ Participated in daily stand up meetings to prioritize tasks, efficiently address bugs and implement new features, contributing to the iterative development process
- ❖ Utilized Angular/Typescript for front-end development, seamlessly connecting to backend endpoints built with Python/Flask/MongoDB

DALLAS CHINESE NEWS

Lead Full Stack Developer

August 2023 – Present

Richardson, Texas

- ❖ led the rebuilding of a multi-page website, collaborating with the project manager and initiating the process from mock designs to completion.
- ❖ Engineered a streamlined UI for content management, utilizing React, MySQL, Node and Express. Diagnosed and resolved frontend/backend issues, ensuring seamless website functionality.

FV MAGAZINE

Lead Front End/Wordpress Developer Intern

June 2023 – March 2024

Remote

- ❖ Proficiently used Elementor to create dynamic web pages, enhancing visual appeal and functionality.
- ❖ Applied HTML, JavaScript, and CSS to augment WordPress templates.
- ❖ Facilitated effective communication between design and development teams
- ❖ Took a leadership role in task delegation, optimizing workflow efficiency in an AGILE environment.

PROJECTS

GROOVEHUB REMIXED

June 2023

As the project leader, I was tasked with overseeing the entire workflow of the application. My personal contributions included UI/UX design and implementation as well as some back to front routing functionality

Website: <https://groovehub-remixed-2f12da1632a2.herokuapp.com/>

Tech utilized: React, Spotify API, MongoDB/Mongoose, GraphQL/Apollo, Google Firebase, NodeJS

MUSICIFY

September 2023

This music driven personal passion project contains many resemblances to Spotify, a popular music streaming service. Fully equipped with subscription services, this application allows users to upload and listen to their favorite music as well as browse other songs shared by users.

Website: <https://musicify-175f0766b215.herokuapp.com/>

Tech utilized: Next.js, React, Stripe, Supabase/PostgreSQL, Tailwind CSS
