MySQL/Sequelize  
MongoDB/Mongoose

## SUMMARY

Full stack developer with a knowledge base in MERN. Very passionate in learning new technologies and incorporating them into an ever expanding list of applications. Eager to utilize both creativity and efficiency to tackle new challenges.

## EXPERIENCE

### FV Magazine

9/1/2023 - Present

#### Lead Front End/Wordpress Developer Intern

Remote

- Used elementor page builder to develop a variety of dynamic web pages ranging from interviews to shopping pages.
- Utilized HTML/JS/CSS to supplement wordpress templates.
- Coordinated meetings between web design and web development team.
- Designate tasks to members of the web development team utilizing task tracker.
- Helped organize and maintain an AGILE work environment.

### Richardson Family Medicine Clinic

6/1/2021 - 2/27/2022

#### Medical Tech/Assistant

Richardson, Texas

- Performed ANS (Autonomic Nervous System) Testing designed to catch early signs of cardiovascular disease under MDRPM at the main service clinic in North Texas.
- Utilized Epic medical records charting system to document patient encounters
- Trained new medical technicians to administer ANS at other locations in North Texas.
- Introduce RPM (remote patient monitoring program) designed to monitor patient's blood pressure readings daily.
- Coordinate meetings between service providers/doctors, bill insurance companies and resolve issues between patient's insurances.

## PROJECTS

### Groovehub Remixed

June 2023 to Present

As the project leader, I was tasked with overseeing the entire workflow of the application. My personal contributions included UI/UX design as well as some back to front routing functionality. As a group, we worked together to turn my initial proposed idea into reality in this second iteration music app.

Website: <https://groovehub-remixed-2f12da1632a2.herokuapp.com/>

**Tech utilized:** React, Spotify API, MongoDB/Mongoose, GraphQL/Apollo, Google Firebase, NodeJS

### Musicify

September 2023 to Present

This music driven personal passion project contains many resemblances to Spotify, a popular music streaming service. Fully equipped with subscription services, this application allows users to upload and listen to their favorite music as well as browse other songs shared by users.

Website: <https://musicify-175f0766b215.herokuapp.com/>

**Tech utilized:** Next.js, React, Stripe, Supabase/PostgreSQL, Tailwind CSS

## EDUCATION

### Certificate in Full Stack Web Development, UT Austin

3/27/2023 - 6/20/2023

Austin, Texas

500+ hours of comprehensive coding involving both curriculum and project work. Received certification on the MERN stack (MongoDB, Express, React, Node).

**Master of Science in Biomedical Sciences**  
**at Kansas City University of Medicine and Biosciences**
