Danny Mak
FULL STACK DEVELOPER

Email: Danny.Mak2@gmail.com | Phone: (214)-499-4903 | Plano, TX 75093
LinkedIn: /danny-mak | Portfolio: https://dannymak.org | Github: /Dannymak1993

SKILLS

PROGRAMMING LANGUAGES
HTML5
CSS 3
Javascript
Java

FRAMEWORKS
Node.js
Express
React
Bootstrap
JQuery
Handlebars
NodeJS
Spring Boot

DATABASES
MySQL/Sequelize
MongoDB/Mongoose

SUMMARY

Full stack developer with a knowledge base in MERN. Very passionate in learning new technologies and incorporating them into an ever expanding list of applications. Eager to utilize both creativity and efficiency to tackle new challenges.

EXPERIENCE

Dallas Chinese News   **11/6/2023 - Present**
Full Stack Web Developer   **Dallas, Texas**
- led the rebuilding of a multi-page website, collaborating with the project manager and initiating the process from mock designs to completion.
- Engineered a streamlined UI for efficient content management, utilizing React, MySQL, Node and Express.
- Diagnosed and resolved frontend/backend issues, ensuring seamless website functionality.

FV Magazine   **9/1/2023 - Present**
Lead Front End/Wordpress Developer Intern   **Remote**
- Proficiently used Elementor to create dynamic web pages, enhancing visual appeal and functionality.
- Applied HTML, JavaScript, and CSS to augment WordPress templates.
- Facilitated effective communication between design and development teams
- Took a leadership role in task delegation, optimizing workflow efficiency in an AGILE environment.

PROJECTS

Groovehub Remixed   **June 2023 to Present**
As the project leader, I was tasked with overseeing the entire workflow of the application. My personal contributions included UI/UX design as well as some back to front routing functionality. As a group, we worked together to turn my initial proposed idea into reality in this second iteration music app.
Website: https://groovehub-remixed-2f12da1632a2.herokuapp.com/
Tech utilized: React, Spotify API, MongoDB/Mongoose, GraphQL/Apollo, Google Firebase, NodeJS

Musicify   **September 2023 to Present**
This music driven personal passion project contains many resemblances to Spotify, a popular music streaming service. Fully equipped with subscription services, this application allows users to upload and listen to their favorite music as well as browse other songs shared by users.
Website: https://musicify-175f0766b215.herokuapp.com/
Tech utilized: Next.js, React, Stripe, Supabase/PostgreSQL, Tailwind CSS

EDUCATION

Certificate in Full Stack Web Development, UT Austin   **3/27/2023 - 6/20/2023**
                                                               Austin, Texas

500+ hours of comprehensive coding involving both curriculum and project work. Received certification on the MERN stack (MongoDB, Express, React, Node).

Master of Science in Biomedical Sciences   **8/1/2018 – 6/3/2019**
at Kansas City University of Medicine and Biosciences   **Kansas City, Missouri**

Bachelor of Science in Biology   **8/24/2012 – 5/2/2017**
at University of Texas at Dallas   **Richardson, Texas**
